SAFETY DATA SHEET

DYNA-STIX WDU+ Revision date 25-Nov-2019
Revision Number 2
Supersedes Date: 24-May-2018

1. Identification

1.1. Product Identifier

Product Name
Dyna-Stix WDU+

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended use Adhesives.
Uses advised against No information available

1.3. Details of the supplier of the safety data sheet

Responsible Party
Bostik Inc.
198 Nexus Drive
Dalton, GA 30721 USA
Phone: +1 (800) 367-4583 (Domestic Toll Free)
Phone: +1 (706) 272-5800 (Local)
Fax: +1 (706) 272-5801
E-mail msds@bostik.com

1.4. Emergency telephone number

Telephone: Chemtrec:800-424-9300
Rapid Technical Response: 706-508-5907

Section 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

<table>
<thead>
<tr>

2.2. Label Elements

EMERGENCY OVERVIEW

Danger

Hazard statements
May cause allergy or asthma symptoms or breathing difficulties if inhaled
May cause an allergic skin reaction
Combustible liquid
SAFETY DATA SHEET

DYNA-STIX WDU+
Revision Number 2

Revision date 25-Nov-2019
Supersedes Date: 24-May-2018

Precautionary Statements - Prevention
Avoid breathing dust/fume/gas/mist/vapors/spray
In case of inadequate ventilation wear respiratory protection
Contaminated work clothing should not be allowed out of the workplace
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking
Wear protective gloves/protective clothing/eye protection/face protection

Precautionary Statements - Response
IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.
In case of fire: Use CO2, dry chemical, or foam to extinguish.

Precautionary Statements - Storage
Store in a well-ventilated place. Keep cool

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

Hazards not otherwise classified (HNOC)
Not applicable

Unknown acute toxicity
24 % of the mixture consists of ingredient(s) of unknown toxicity

2.3. Other Information
Causes mild skin irritation.

Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

Section 4: FIRST AID MEASURES

4.1. Description of first aid measures

Eye contact
In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.
SAFETY DATA SHEET

Skin contact
Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. May cause sensitization by skin contact. In the case of skin irritation or allergic reactions see a physician.

Inhalation
Remove victim to fresh air and keep at rest in a position comfortable for breathing. May cause allergic respiratory reaction. Administer oxygen if breathing is difficult. Get medical attention if symptoms occur.

Ingestion
Do NOT induce vomiting. Call a physician or poison control center immediately.

Self-protection of the first aider
Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms
May cause sensitization by inhalation and skin contact.

4.3. Indication of any immediate medical attention and special treatment needed
Note to physicians
May cause sensitization by inhalation and skin contact. Treat symptomatically.

4.4. Reference to Other Sections
Reference to other sections
Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION
Section 11: TOXICOLOGY INFORMATION

Section 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing media
Suitable extinguishing media
Dry chemical, CO2, water spray or regular foam. Use water spray or fog; do not use straight streams. Move containers from fire area if you can do it without risk.

Unsuitable extinguishing media
CAUTION: All these products have a very low flash point: Use of water spray when fighting fire may be inefficient.

5.2. Special hazards arising from the substance or mixture
Specific hazards arising from the chemical
Vapors may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Keep product and empty container away from heat and sources of ignition. Product is or contains a sensitizer. May cause sensitization by inhalation and skin contact.

Explosion Data
Sensitivity to mechanical impact
None.
Sensitivity to static discharge
None.

5.3. Advice for firefighters
Special protective actions for fire-fighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Section 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures
Personal precautions
Use personal protective equipment as required. ELIMINATE all ignition sources (no
smoking, flares, sparks or flames in immediate area). Stop leak if you can do it without risk. Do not touch or walk through spilled material. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or mists. Wash thoroughly after handling.

Other information
Water spray may reduce vapor; but may not prevent ignition in closed spaces.

6.2. Environmental precautions
Environmental precautions
Prevent entry into waterways, sewers, basements or confined areas. See Section 12 for additional Ecological Information.

6.3. Methods and material for containment and cleaning up
Methods for containment
Protect from moisture. A vapor suppressing foam may be used to reduce vapors. Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see Section 13).

Methods for cleaning up
Use personal protective equipment as required. Dam up. Soak up with inert absorbent material. Use clean non-sparking tools to collect absorbed material. Take precautionary measures against static discharges. Clean contaminated surface thoroughly.

6.4. Reference to other sections
Reference to other sections
Section 7: HANDLING AND STORAGE
Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION
Section 13: DISPOSAL CONSIDERATIONS

Section 7: HANDLING AND STORAGE

7.1. Precautions for safe handling
Advice on safe handling
Use personal protective equipment as required. Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke when using this product. Do not breathe dust/fume/gas/mist/vapors/spray. Use with local exhaust ventilation. All equipment used when handling the product must be grounded. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Avoid contact with skin, eyes or clothing. After contact with skin, wash immediately with plenty of water and soap. Wash contaminated clothing before reuse.

7.2. Conditions for safe storage, including any incompatibilities
Storage Conditions
Keep out of the reach of children. Keep in properly labeled containers. Keep containers tightly closed in a cool, well-ventilated place. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Protect from direct contact with water or excessive moisture.

Incompatible materials
Water.

7.3. Specific end use(s)
Specific Use(s)
Adhesives.

Other information
No information available.

7.4. References to Other Sections
Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

Exposure Guidelines. This product contains substances which in their raw state are powder form, however in this product they are in a non-respirable form. Inhalation of powder/dust particles is unlikely to occur from exposure to this product.

8.2. Exposure controls

Engineering controls
- Showers
- Eyewash stations
- Ventilation systems.

Personal protective equipment [PPE]

Eye/face protection
- Tight sealing safety goggles.

Skin and body protection
- Wear suitable chemical resistant gloves. The selection of suitable gloves does not only depend on the material, but also on further marks of quality and various manufacturers.

Respiratory protection
- If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

General hygiene considerations
- Use personal protective equipment as required. Handle in accordance with good industrial hygiene and safety practice. When using do not eat, drink or smoke. Avoid breathing (dust, vapor, mist, gas). Avoid contact with skin, eyes or clothing. Wash face, hands and any exposed skin thoroughly after handling. Take off all contaminated clothing and wash it...

Section 10: STABILITY AND REACTIVITY

10.1. Reactivity

Reacts with water. Protect from moisture.

10.2. Chemical stability

Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions
None under normal processing.

10.4. Conditions to avoid

Heat, flames and sparks. Reacts with water. Protect from moisture. Keep from any possible contact with water.

10.5. Incompatible materials

Water.

10.6. Hazardous decomposition products

None known based on information supplied.

Section 11: TOXICOLOGY INFORMATION

11.1. Information on toxicological effects

Product Information

Inhalation  May cause sensitization by inhalation.

Eye contact  Based on available data, the classification criteria are not met.

Skin contact  May cause sensitization by skin contact.

Ingestion  Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Symptoms  No information available.

Skin corrosion/irritation  No information available.

Serious eye damage/eye irritation  No information available.

Irritation  No information available.

Corrosivity  No information available.

Sensitization  Isocyanates are known to be strong sensitizers. People who suffer from skin sensitization problems, asthma, allergies, chronic or recurring respiratory illnesses should not be deployed in any process using this preparation. May cause sensitization by inhalation and skin contact.

Germ cell mutagenicity  No information available.

Reproductive toxicity  No information available.

Developmental toxicity  No information available.

Teratogenicity  No information available.

STOT - single exposure  No information available.

STOT - repeated exposure  No information available.

Chronic Toxicity  No information available.

Target organ effects  Skin, Lungs, Respiratory system, Eyes.
Aspiration hazard
Carcinogenicity

No information available.

The table below indicates whether each agency has listed any ingredient as a carcinogen. As Quartz (14808-60-7) is inextricably bound in the polymer matrix, it is not expected to be available as an airborne hazard (dust, mist, or spray) under normal condition of uses.

Section 13: DISPOSAL CONSIDERATIONS
13.1 Waste treatment methods

Disposal of Wastes

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

Contaminated packaging

Dispose of in accordance with federal, state and local regulations.

Section 14: TRANSPORT INFORMATION

Note:

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments made in non-bulk packages (see regulatory definition).
The information shown here, may not always agree with the bill of lading shipping description for the material.

49 CFR 173.150(f)(2) "The requirements in this subchapter do not apply to a material classed as a combustible liquid in a non-bulk packaging unless the combustible liquid is a hazardous substance, a hazardous waste, or a marine pollutant."
